

Section 401 Water Quality Certification Public Notices

The Central Coast Water Board is currently reviewing applications for the following project for certification under Section 401 of the Clean Water Act. We encourage public comments on the proposed work, which will be considered in the decision. You may submit comments in writing on any of these projects to:

Central Coast Regional Water Quality Control Board
895 Aerovista Place, Suite 101
San Luis Obispo, CA 93401
Attention: 401 Coordinator

Project Applicant	Jeff Martin
Applicant's Agent	Davinna Ohlson – Live Oak Associates, Inc.
Project Name	Lands of Martin Residential Development
Receiving Water	West Branch Llagas Creek
City/County	San Martin/ Santa Clara
Public Notice	8/10/07 to 8/30/07
Project Description	<p>The purpose of this project is to realign and widen approximately 2,237 linear feet of West Branch Llagas Creek to meet flood protection standards determined for the area by Santa Clara County, the Santa Clara Valley Water District, and FEMA in order to accommodate a 19-lot residential subdivision.</p> <p>The project activities include: realigning the creek approximately 250 feet east of its current alignment and widening the creek from its current width of 6 feet to a low-flow channel width of approximately 40 feet. A multi-span low profile arch bridge will be constructed over the realigned channel.</p> <p>Mitigations will include: revegetating the banks of the realigned channel, including three revegetation zones based on their expected hydrologic functions. The revegetation zones consist of a low flow zone, a bench zone, and an upper channel bench and bank zone. These areas will be planted with native vegetation in containers and seeded with appropriate native vegetation.</p> <p>A Mitigated Negative Declaration was determined for this project. State Clearinghouse File No. 2007029021</p>
